## SUBJECT INDEX

- [(Na<sup>+</sup> + K<sup>+</sup>) - (Cl<sup>-</sup> + SO<sub>4</sub><sup>=</sup>)] on the rate of calcium mobilisation by dairy cows at parturition, Effects of reducing dietary, 1
- 4-methylimidazole in goats and heifers, Disposition of, 72
- Acidosis in sheep, Physicochemical alterations in blood, cerebrospinal fluid and urine in experimental, 217
- Actinobacillus pleuropneumoniae* serotype 1, Production and purification of a low molecular weight haemolysin produced by, 45
- Actinobacillus pleuropneumoniae* serotype 2 in mucosal secretions and sera of infected pigs as demonstrated by an enzyme-linked immunosorbent assay, Antibodies against, 57
- Aditoprim in milk-fed and conventionally fed calves of different ages, Comparative pharmacokinetics of, 86
- ADP induces desensitisation of equine platelet aggregation responses: studies using ADPBS, a stable analogue of ADP, 235
- Adrenergic and peptidergic innervation of the trachealis muscle in the normal horse: a preliminary report, 335
- Age-related respiratory responses to substance P in normal sheep, 130
- Aldosterone concentrations in horses, Preliminary investigations into factors that affect plasma, 319
- Anaemia in housed lambs, 306
- Anaemia virus in individual chickens of breeder flocks, A long term observation of antibody status to chicken, 392
- Analgesic effects of detomidine in thoroughbred horses with chronic tendon injury, 52
- Antibodies against *Actinobacillus pleuropneumoniae* serotype 2 in mucosal secretions and sera of infected pigs as demonstrated by an enzyme-linked immunosorbent assay, 57
- Antibody responses against enteric viral antigens in pigs, Potential viral vectors for the stimulation of mucosal, 345
- Antibody responses of first and second season grazing calves, Serum anti-strongyle, 340
- Ascites and induced hypoxia, Ultrastructural demonstration of mitochondrial calcium overload in myocardial cells from broiler chickens with, 267
- Baquiloprim, a new antifolate antibacterial: in vitro activity and pharmacokinetic properties in cattle, 372
- Blood from dogs, Critical differences of clinical chemical parameters in, 10
- Blood pressure in dogs: a potential indicator for the identification of stress, Non-invasive measurement of arterial, 195
- Bone strength on the frequency of broken bones in hens, Effect of, 15
- Bone volume in laying hens, Effects of perches on trabecular, 207
- Briards in the United Kingdom, Hypercholesterolaemia in, 80
- Cadmium on D-galactose transport across the small intestine of rabbits, Effect of, 189
- Caffeine contractures, twitch characteristics and the threshold for Ca<sup>2+</sup>-induced Ca<sup>2+</sup> release in skeletal muscle from horses with chronic intermittent rhabdomyolysis, 110
- Calcium mobilisation by dairy cows at parturition, Effects of reducing dietary [(Na<sup>+</sup> + K<sup>+</sup>) - (Cl<sup>-</sup> + SO<sub>4</sub><sup>=</sup>)] on the rate of, 1
- Calcium overload in myocardial cells from broiler chickens with ascites and induced hypoxia, Ultrastructural demonstration of mitochondrial, 267
- Capsular hyaluronic acid in *Pasteurella multocida* type A and its counterpart in type D, 20
- Carbimazole and methimazole in clinically normal cats, Comparison of the disposition of, 351
- Carrier erythrocytes from white-tailed deer: morphology, osmotic fragility and survival of circulating sickled erythrocytes, 227
- Catecholaminergic innervation of the equine ureter, 312
- Chemotherapeutic trials with four drugs in crossbred calves experimentally infected with *Theileria annulata*, 68
- Comparative pharmacokinetics of aditoprim in milk-fed and conventionally fed calves of different ages, 86
- Comparison of an HPLC and bioassay method to determine antimicrobial concentrations after intravenous and oral administration of enrofloxacin in four dogs, 247
- Comparison of bone volume and strength as measures of skeletal integrity in caged hens with access to perches, 202
- Comparison of the disposition of carbimazole and methimazole in clinically normal cats, 351
- Critical differences of clinical chemical parameters in blood from dogs, 10
- Cryptosporidium parvum* sporozoites by immunoglobulin and non-immunoglobulin components in serum, Neutralisation of, 356
- D-galactose transport across the small intestine of rabbits, Effect of cadmium on, 189
- Danofloxacin, tylosin and oxytetracycline against mycoplasmas of veterinary importance, In vitro activity of, 329
- Determination of the IgG index for the detection of intrathecal immunoglobulin synthesis in dogs using an ELISA, 40
- Detomidine in thoroughbred horses with chronic tendon injury, Analgesic effects of, 52
- Dictyocaulosis, A dipstick immunoassay using a recombinant antigen for the rapid diagnosis of bovine, 278
- Dipstick immunoassay using a recombinant antigen for the rapid diagnosis of bovine dictyocaulosis, A, 278

- Disposition of 4-methylimidazole in goats and heifers, 72
- Distribution of antigens of *Fasciola gigantica* at various stages of development, 252
- Distribution of intramuscularly administered erythromycin into subcutaneous tissue chambers before and after inoculation with *Pasteurella haemolytica*, 366
- Effect of bone strength on the frequency of broken bones in hens, 15
- Effect of cadmium on D-galactose transport across the small intestine of rabbits, 189
- Effect of constant load training on skeletal muscle histochemistry of thoroughbred horses, 147
- Effect of stage of oestrous cycle on tylosin disposition in genital tract secretions of cows, 32
- Effects of perches on trabecular bone volume in laying hens, 207
- Effects of reducing dietary  $[(Na^+ + K^+) - (Cl^- + SO_4^{2-})]$  on the rate of calcium mobilisation by dairy cows at parturition, 1
- Endocarditis in Belgium, *Erysipelothrix tonsillarum* isolated from dogs with, 264
- Enrofloxacin in four dogs, Comparison of an HPLC and bioassay method to determine antimicrobial concentrations after intravenous and oral administration of, 247
- Eosinophilic synovitis following the intra-articular injection of bacterial antigen in horses, 256
- Erysipelothrix tonsillarum* isolated from dogs with endocarditis in Belgium, 264
- Erythromycin into subcutaneous tissue chambers before and after inoculation with *Pasteurella haemolytica*, Distribution of intramuscularly administered, 366
- Escherichia coli*, Experimental infection of neonatal pigs with CNF toxin-producing strains of, 292
- Experimental infection of neonatal pigs with CNF toxin-producing strains of *Escherichia coli*, 292
- Experimental intramammary infection of ewes with *Staphylococcus aureus* subsp. *anaerobius*, 221
- Fasciola gigantica* at various stages of development, Distribution of antigens of, 252
- Gastrin and gastrin-related responses to infection with *Ostertagia ostertagi* in the calf, 384
- Gingival crevices in sheep, The heritability of, 379
- Haematological reference values for East African wild ungulates, 261
- Haemolysin produced by *Actinobacillus pleuropneumoniae* serotype 1, Production and purification of a low molecular weight, 45
- Haemolysis or other anaemias, Red cell-bound immunoglobulins and complement measured by an enzyme-linked antiglobulin test in dogs with autoimmune, 170
- Haemonchosis, Immune responsiveness of lambs selected for resistance to, 361
- Haemonchus contortus* gut membrane proteins, Protection in lambs immunised with, 94
- Haemonchus contortus* soluble antigen induce lymphocyte responses in naive lambs and immune sheep, The same fractions of, 244
- Haemonchus contortus* under field and laboratory conditions, Survival and development of ivermectin-resistant or susceptible strains of, 133
- Hereditary necrotising myelopathy in Kooiker dogs, 118
- Heritability of gingival crevices in sheep, The, 379
- Herpesvirus-1 in the vaginal tunics of colts following local inoculation, Replication of equid, 249
- Herpesvirus-1 ISCOM vaccination and challenge with virus of the homologous strain, Responses of ponies to equid, 299
- Hyaluronic acid in *Pasteurella multocida* type A and its counterpart in type D, Capsular, 20
- Hypercholesterolaemia in briards in the United Kingdom, 80
- Hypobiosis of *Trichostrongylus tenuis* in experimentally infected grey partridges, 259
- Hypoxia, Ultrastructural demonstration of mitochondrial calcium overload in myocardial cells from broiler chickens with ascites and induced, 267
- Immune responsiveness of lambs selected for resistance to haemonchosis, 361
- Immunoglobulin synthesis in dogs using an ELISA, Determination of the IgG index for the detection of intrathecal, 40
- In vitro activity of danofloxacin, tylosin and oxytetracycline against mycoplasmas of veterinary importance, 329
- Influences of extracellular matrix components on the growth and differentiation of ruminal epithelial cells in primary culture, 102
- Ivermectin-resistant or susceptible strains of *Haemonchus contortus* under field and laboratory conditions, Survival and development of, 133
- Kidney disease of salmonids, Pathology associated with meningoencephalitis during bacterial, 25
- Kinetic disposition, systemic bioavailability and tissue distribution of salinomycin in chickens, 179
- Kooiker dogs, Hereditary necrotising myelopathy in, 118
- Lipoprotein lipids in five different breeds of dogs, Plasma, 63
- Load training on skeletal muscle histochemistry of thoroughbred horses, Effect of constant, 147
- Long term observation of antibody status to chicken anaemia virus in individual chickens of breeder flocks, A, 392
- Maedi-visna and sheep pulmonary adenomatosis, Pathological and epidemiological aspects of the coexistence of, 140
- Meningoencephalitis during bacterial kidney disease of salmonids, Pathology associated with, 25
- Methimazole in clinically normal cats, Comparison of the disposition of carbimazole and, 351
- Mycoplasmas of veterinary importance, In vitro activity of danofloxacin, tylosin and oxytetracycline against, 329
- Necrotising myelopathy in Kooiker dogs, Hereditary, 118
- Neutralisation of *Cryptosporidium parvum* sporozoites by immunoglobulin and non-immunoglobulin components in serum, 356
- Non-invasive measurement of arterial blood pressure in dogs: a potential indicator for the identification of stress, 195
- Oestrous cycle on tylosin disposition in genital tract secretions of cows, Effect of stage of, 32

- Ostertagia ostertagi* in the calf, Gastrin and gastrin-related responses to infection with, 384
- Oxytetracycline against mycoplasmas of veterinary importance, In vitro activity of danofloxacin, tylosin and, 329
- Pasteurella haemolytica*, Distribution of intramuscularly administered erythromycin into subcutaneous tissue chambers before and after inoculation with, 366
- Pasteurella multocida* type A and its counterpart in type D, Capsular hyaluronic acid in, 20
- Pathogenesis of *Trypanosoma (brucei) evansi* in small East African goats, 283
- Pathological and epidemiological aspects of the coexistence of maedi-visna and sheep pulmonary adenomatosis, 140
- Pathology associated with meningoencephalitis during bacterial kidney disease of salmonids, 25
- Peste des petits ruminants, Use of thermostable Vero cell-adapted rinderpest vaccine as a heterologous vaccine against, 212
- Pharmacokinetic profile of sulphamonomethoxine-trimethoprim in horses after intravenous, intramuscular and oral administration, 184
- Physicochemical alterations in blood, cerebrospinal fluid and urine in experimental acidosis in sheep, 217
- Plasma lipoprotein lipids in five different breeds of dogs, 63
- Plasma potassium measurement with a new reagent carrier (Reflotron): comparison with ion-selective electrode results, 127
- Platelet aggregation responses: studies using ADPPs, a stable analogue of ADP, ADP induces desensitisation of equine, 235
- Potassium measurement with a new reagent carrier (Reflotron): comparison with ion-selective electrode results, Plasma, 127
- Potential viral vectors for the stimulation of mucosal antibody responses against enteric viral antigens in pigs, 345
- Preliminary investigations into factors that affect plasma aldosterone concentrations in horses, 319
- Production and purification of a low molecular weight haemolysin produced by *Actinobacillus pleuropneumoniae* serotype 1, 45
- Protection in lambs immunised with *Haemonchus contortus* gut membrane proteins, 94
- Pulmonary adenomatosis, Pathological and epidemiological aspects of the coexistence of maedi-visna and sheep, 140
- R-like protein of *Streptococcus uberis* stimulates opsonising antibodies, An, 124
- Red cell-bound immunoglobulins and complement measured by an enzyme-linked antiglobulin test in dogs with autoimmune haemolysis or other anaemias, 170
- (Reflotron): comparison with ion-selective electrode results, Plasma potassium measurement with a new reagent carrier, 127
- Replication of equid herpesvirus-1 in the vaginal tunics of colts following local inoculation, 249
- Responses of ponies to equid herpesvirus-1 ISCOM vaccination and challenge with virus of the homologous strain, 299
- Rhabdomyolysis, Caffeine contractures, twitch characteristics and the threshold for  $\text{Ca}^{2+}$ -induced  $\text{Ca}^{2+}$  release in skeletal muscle from horses with chronic intermittent, 110
- Rinderpest vaccine as a heterologous vaccine against peste des petits ruminants, Use of thermostable Vero cell-adapted, 212
- Ruminal epithelial cells in primary culture, Influences of extracellular matrix components on the growth and differentiation of, 102
- Salinomycin in chickens, Kinetic disposition, systemic bioavailability and tissue distribution of, 179
- Same fractions of *Haemonchus contortus* soluble antigen induce lymphocyte responses in naive lambs and immune sheep, 244
- Serum anti-strongyle antibody responses of first and second season grazing calves, 340
- Sickled erythrocytes, Carrier erythrocytes from white-tailed deer: morphology, osmotic fragility and survival of circulating, 227
- Skeletal integrity in caged hens with access to perches, Comparison of bone volume and strength as measures of, 202
- Skeletal muscle histochemistry in male and female Andalusian and Arabian horses of different ages, 160
- Skeletal muscle histochemistry of thoroughbred horses, Effect of constant load training on, 147
- Staphylococcus aureus* subsp *anaerobius*, Experimental intramammary infection of ewes with, 221
- Streptococcus uberis* stimulates opsonising antibodies, An R-like protein of, 124
- Substance P in normal sheep, Age-related respiratory responses to, 130
- Sulphamonomethoxine-trimethoprim in horses after intravenous, intramuscular and oral administration, Pharmacokinetic profile of, 184
- Survival and development of ivermectin-resistant or susceptible strains of *Haemonchus contortus* under field and laboratory conditions, 133
- Tendon injury, Analgesic effects of detomidine in thoroughbred horses with chronic, 52
- Theileria annulata*, Chemotherapeutic trials with four drugs in crossbred calves experimentally infected with, 68
- Trabecular bone volume in laying hens, Effects of perches on, 207
- Trachealis muscle in the normal horse: a preliminary report, Adrenergic and peptidergic innervation of the, 335
- Trichostrongylus tenuis* in experimentally infected grey partridges, hypobiosis of, 259
- Trypanosoma (brucei) evansi* in small East African goats, Pathogenesis of, 283
- Twitch characteristics and the threshold for  $\text{Ca}^{2+}$ -induced  $\text{Ca}^{2+}$  release in skeletal muscle from horses with chronic intermittent rhabdomyolysis, Caffeine contractures, 110
- Tylosin and oxytetracycline against mycoplasmas of veterinary importance, In vitro activity of danofloxacin, 329
- Tylosin disposition in genital tract secretions of cows, Effect of stage of oestrous cycle on, 32
- Ultrastructural demonstration of mitochondrial calcium overload in myocardial cells from broiler chickens with ascites and induced hypoxia, 267
- Ureter, Catecholaminergic innervation of the equine, 312
- Use of thermostable Vero cell-adapted rinderpest vaccine as a heterologous vaccine against peste des petits ruminants, 212
